

Public Realm Works

Enhancing pedestrian access, streetscape and car parking facilities within The Village

Map of The Village, denoting public car parks and Greenfield Crescent works

SOUTH CAR PARK

The first phase of the transformation of The Village will start in April and will see the public pay and display South car park closed whilst the build works programme is underway at Mander Portman Woodward college. Upon completion of the build works, the pay and display car park will be resurfaced.

NORTH CAR PARK

During April the North car park resurfacing works will commence and when completed pedestrian access, in addition to car parking facilities will be improved.

GREENFIELD CRESCENT WORKS

AMEY as part of a joint partnership with Calthorpe Estates, during the spring, will be commencing the complete overhaul and refurbishment of Greenfield Crescent. This will include high quality granite set finishes and a section of shared surface, all-in-all creating an impressive new look for the Crescent and one which will enhance pedestrian access.

There will be periods during the Crescent and car parking works when the pay and display car parks will be closed and access along Greenfield Crescent may be restricted to one lane. We hope to keep the disruption down to a minimum, and will notify all customers affected of alternative temporary car parking arrangements.

Thanks for your patience and support during the works to improve The Village.

Works take place April to September 2015

Calthorpe Estates, 76 Hagley Road, Edgbaston, Birmingham B16 8LW
